Name: _____ Primary 5-a-day Gold

**8th February**

$25\%$ of $320$

$\frac{7}{8}$ of $1{,}080$

Here is a pattern of dots

Draw Pattern 4

How many dots will there be in Pattern 6?

Explain why there will **not** be a pattern that uses 120 dots.

Find three different numbers that are:

- a prime number

- two less than a square number
