

PROBLEM SOLVING 1

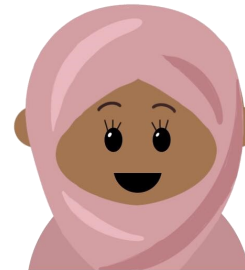

Use the digit cards below to create two 4-digit by 2-digit multiplication calculations which give an answer greater than 500,000.

Find all possibilities.

PROBLEM SOLVING 2

All of the missing digits in the calculation below are 2, 4, 6 or 8.

$$\begin{array}{r} \bullet 1 \bullet \\ \times \bullet \bullet \bullet \\ \hline 1 \bullet \bullet \bullet 0 \\ \hline 1 \bullet \bullet \bullet \bullet \end{array}$$

Help Asha calculate the missing digits.
