Dear Parents,

School Security Arrangements Update

I am just writing to give you all an update on our improved security features around school. We have further improved our school's safeguarding arrangements by installing a number of new security cameras and an improved centralised monitoring CCTV system.

There are now a total of 10 cameras strategically placed on the school building that gives us a complete coverage of the school site, playgrounds and parent waiting areas.

This added security builds on the numerous arrangements that we have in place already. These include: new fences, coded locks on all doors, audio and visual outer door pick up procedures, Out of School Club drop off and pick up arrangements, as well as regular whole school fire and lock down drills.

Safeguarding our children will always remain our overriding priority and we will continue to look to improve outcomes in this area.

Yours sincerely,

Nick Huxley
Headteacher
