Dear Parents,

Inconsiderate behaviours around the Doctors' Surgery and Solo Restaurant

In the last few weeks, I have had complaints from both the manager of the Doctors Surgery and the owners of Solo Restaurant about some anti-social behaviours from a minority of our children and parents!

The behaviours that are upsetting staff at both establishments involve children being allowed to run and play around the Surgery and the Restaurant. At the Surgery this has involved swinging and climbing on handrails, climbing up and over fences and running past Doctors' rooms; on occasions when they have been in the middle of consultations with patients. At the restaurant children have been running in and out of planters and the seating areas at the front.

I am sure that you would all agree that these behaviours are not appropriate and that it is important that we ensure good relationships with our neighbours.

Therefore, I am asking parents to ensure that children are behaving in an appropriately sensible manner as they walk to and from school, and certainly not displaying the type of behaviours that have been described in this letter.

Thank you for support in this matter.

Yours sincerely,

Nick Huxley
Headteacher
